

BETTER GOLD KILOBAR

Investing in the future of responsible mining & refining

METAL	SIZE	WEIGHT	SPECIFICATIONS
Au ≥ 999.9‰	117 x 52 x 9 mm	1000 g	BGI extracted gold material

The Better Gold Initiative for Artisanal and Small-Scale Mining (BGI) was founded in 2013 as a private-public partnership between the Swiss Better Gold Association (SBGA) and the State Secretariat for Economic Affairs (SECO).

With the Better Gold Initiative, the Swiss government and the private sector have developed a successful pioneering scheme to enhance transparency, responsibility and profitability throughout the value chain. Together we are bringing Better Gold to the market.
